Sensitivity: Confidential

Hans/Bettie,

Attached is the IRB approved protocol and Selected Attachments dated Feb 13, 2002.

The following minor changes were walked into the meeting for the protocol:

Section 7.7.4-Carboxyhemoglobin will require a 7 mL tube (changed from 6 ml). Blood volume change reflected appropriately in all affected sections (3, 7.7.4, and 7.7).

Section 7.9-Transdermal Patch Nicotine Biomonitoring, the exposed patches will be collected in high density polypropylene (changed from high density polyethylene).

The following change was made to Selected Attachments.

Question 5 of the D1 Smoking Behavior Questionnaire choices changed to 9 or less, 10-19, or 20 or more.

Thanks,

Mike
